About:

I'm Syed Syed Ammaji, currently pursuing my B.Tech in Computer Science and Engineering at K.S.R.M College of Engineering. With a CGPA of 9.1, I'm passionate about leveraging new technologies to innovate and solve problems. I am Skilled in Python programming, MySQL database management , front-end development and Data Science.

Internship:

During my three-month internship in data science, I acquired a diverse skill set that encompasses MySQL for data management, Microsoft Excel for comprehensive data analysis, and Power BI alongside Tableau for impactful data visualization. This experience equipped me with practical knowledge in handling, analyzing, and presenting data effectively. I gained proficiency in organizing datasets, performing analysis, and creating compelling visual representations, enabling me to contribute meaningfully to data-driven projects and initiatives.

My Objective:

From this project, I am expecting to gain practical, hands-on experience in applying theoretical knowledge to real-world scenarios. I aim to develop specific skills relevant to the project, enhance my problem-solving abilities, and learn how to work effectively within a team. Additionally, I hope to gain insights into the industry standards and best practices, ultimately contributing meaningfully to the project's success while expanding my knowledge base. I believe that this Mentorship will give be valuable advices during my project.
